

Digital Marketing

what is Digital Marketing?

The digital Marketing basically involves moving a locally available store to online and targeting the customers all over the world .The digital marketing is very flexible ,it allows as to target specific customers(for eg.15 - 25 age customers etc.)

The digital marketing involves promoting through different social media platforms like Instagram ,facebook etc. There are two ways of promotion,they are Organic and non-Organic.Organic promotion involves posting storys,post,etc in your instagram page and Non-Organic promotion involves paid ads,google ads which is paid,etc
